Samsung Multifunction *Xpress*

M2875 | 2675 series

For your productivity

High-performance, professional-quality printing for less

Outstanding Achievement in Innovation: Samsung Easy Eco Driver

Print diverse media with high speed and quality

High speed printing and image processing
· Print speed of up to 28 ppm[1] (pages per minute), equipped with a 600 MHz Cortex™-A5 core processor and 128 MB memory.

Sharp & professional document quality
· ReCP (Rendering engine for Clean Pages) technology for sharp text and clear images.
· 4,800x600dpi (dots per inch) effective resolution.

Delivering 4-in-1 versatility
· Offering print, copy, scan and fax function, all-in-one device.

Diverse printing choices for professional documents
· A multipurpose tray that handles wide range of media, up to 220 gsm (grams per square meter), such as labels, cardstock and envelopes.

Cut costs while lowering energy and toner usage

Professional eco solution
· One Touch Eco Button automatically activates 2-up (two pages on one side of the paper) and duplex printing[2], toner-save mode and the option to skip blank pages.
· Easy Eco Driver enables users to remove text or images and also change the layout design such as N-up printing without changing the original documents before printing.

Low total cost of ownership
· Separate toner cartridge system, the toner cartridge and drum are sold separate units, is ideal for cost-conscious business with low printing volumes. And users also need only to purchase the toner cartridge when empty.
· Starter toner (1,200 standard pages) with higher toner yield than average in the market (typically 700~1,000 standard pages) and replacement toner (3,000 standard pages) with high yields require fewer replacements, lowering overall cost per page and maximize productivity.

Increase efficiency with ease-of-use features

Easy management of printers and software
· Toner cartridge replacement is also designed for simplicity requiring as little as four steps.
· Easy Printer Manager enables business to remotely control settings, monitor status and manage multiple devices among other functions.
· Easy Document Creator enables users to scan, compile and save documents in multiple formats, including e-pub.

Mobile printing, easier than ever
· Samsung Mobile Print[3] application enables employees to print, scan and fax from mobile devices easily.
· Users can access printers from anywhere through Google web account using the Google Cloud Print[4].

1. 26ppm is available on M2675F, and M2675FN models only.
   28ppm is available on M2875FD andM2875FW, models only.
2. Duplex printing is available onM2875FD and M2875FW models only.
3. Mobile Printing is available on M2875FW model only or M2675FN and M2875FD models if connected to a wireless router.
4. Google Cloud Printing is available on M2675FN, M2875FD, and M2875FW model only.
